

Puppy Raising Toy Policy

Toys are an important part a puppy's development. Appropriate toys provide mental stimulation, an outlet for normal chewing drive, and provide a positive alternative to destructive chewing of personal property.

A stimulating variety of toys keeps the puppy occupied. Puppies, like children, become bored with the same toys; it is highly recommended that types of toys are rotated frequently. Puppies should have a number of toys to choose from at all times; not only does this help keep the pup engaged but also reduces the chance of him ultimately becoming protective of his toys.

Not all toys currently on the market are safe for the ages, size or breeds of puppies in our program. In addition, some toys and activities are counter productive to developing a working guide. Remember, a guide must willingly work past common distractions such as balls, Frisbees or other toys encountered in everyday life.

Toys can be an effective tool in reducing attention seeking behaviors such as 'keep away'. Puppies pick up unacceptable items and 'parade' them to get raisers' attention; praising and admiring the pup that parades his toys will make him less likely to steal household items. A pup that brings his toys to the raiser is to be encouraged, but under no circumstances should raisers throw toys for a pup or participate in retrieve games.

Even the best toys experience normal wear and tear. Toys should be routinely checked for any damage, splintering or wear. Special attention should be paid to ensure the toy has not become worn to the point of becoming too small, thus posing a choking or ingesting hazard. Some dogs are voracious chewers and will destroy even the strongest, safest toys. Observe your puppy and use toys with caution with strong chewers.

In special circumstances, Community Field Representatives (CFR) may recommend a food stuffed Kong. *Only the CFR, with supervisor approval, may recommend food in a toy.* Soaked kibble, frozen in the Kong is the only allowed food.

The toys in the list below have been carefully researched by GDB staff; *these are the only toys that may be accessed by a program puppy.* Be sure to stay with the brand names listed below as not all toys are of good quality material.

List of Approved Toys:

General use toys (these toys can be left readily available for a pup to play with at will):

- Kong brand: black original and Ultra Kong 6", Planet Kong "Xtreme Goodie Ship" (no food placed in it) black Kongs are stronger than red ones
- Galileo 5" or 6" by Nylabone, also now packaged as 'Dino Bones'

- Nylabone products: Nyla Wishbone, Nyla Ring, Nyla Knot, Dinosaur, any Nylabone (original hard material) that is appropriately robust enough for the size of puppy. This includes 'Big Chews'; the red tire is OK but the yellow one is softer and not approved.
- Sterilized Bones: at least 4" long (No smoked or meaty bones)
- Goughnuts Dog Toy

With Supervision only:

- Cressite ring and Fig 8 tug toy
- FrameBall by Pedigree– tug toy
- Combat Extreme Bone by Bamboo Pet – tug toy
- Knotted rope toys: large, with no attachments
- Jollyball (no handle) with a rope through, sold as Romp-N-Roll. Toss 'n' Floss is a similar large ball with rope through it, also approved.
- Gallon sized or larger plastic bottles: Thoroughly rinsed, lids labels and tops removed (orange juice or detergent bottles only)
- Bounzerballs by Kong.
- Bamboo Pet Extreme Bone Tug Toy

Tug toys should be put up, away from the puppy, after the game to maintain a balanced relationship.

Restricted, for young puppies only (up to 4 months):

- Gummabone products
- Plaque Attack toys
- Hercules bones
- Flat, white, unstuffed faux fleece toys: no squeakers

Unacceptable toys:

- Edible toys: cornstarch bones, rawhide chews/toys, pigs ears, cow hooves
- Balls
- Frisbees
- Retrieving toys
- Raw bones
- Sticks
- Personal items: socks, children's toys etc.
- Anything not on the approved list.
